

**CRIB CHECKLIST**

	Built after September 1986
	No more than 3 cm (1.2 in) of space between the mattress and the bed frame when the mattress is pushed flush to one corner of the crib
	Crib slats no more than 6 cm (2 3/8 in) apart
	Crib sides have secure locking devices
	At least 66 cm (26 in) from the lowest position of the mattress support to the top of the rail when the side is raised
	No end posts higher than 16 mm (5/8 in)
	No decorative knobs, cutouts or corner posts
	No rough edges or exposed bolts
	Metal mattress hangers that hold the mattress support firmly in position
	Plastic wrapping on mattress has been removed
	No chipping or lead paint
	No dangling strings on crib gyms or mobiles
	No large toys, objects or bumper pads in the crib
